10. Additional Information:

- Evaluation criteria - The most economically advantageous tender proposal in accordance with the evaluation criteria is that one which meets technical specifications and requirements set out in tender documents, and the price of which is the lowest.

Evaluation is carried out according to the following methodology:

The number of scores on the "Price" criteria is defined as follows: A tender proposal, which has the most profitable (lowest) price receives maximum points. The number of scores for the rest of proposals is identified by the formula:

Calculated Points = Pmin / Pcalculated * 100, where
Pmin - the lowest "Price" criteria;
Pcalculated - the "Price" criteria of tender proposal, the number of points for which is being calculated;
100 - maximum possible score on the "Price" criteria.
– This document is developed with the financial support of the European Union within the project of: «Modernization and reconstruction of Cross-border Checkpoints on Slovak-Ukrainian border». Ministry of revenues Chop Custom Office is solely responsible for the context of the document and it should not be regarded in any case as the European Union position.
